Saluting Their Service

Commemorations Program - Major Commemorative Grants

Feedback Summary

Overview

The Major Commemorative Grants (MCG) category of the *Saluting Their Service* (STS) Commemorations Program (the Program) aims to support the Australian Government's commitment to acknowledging and commemorating those who served Australia and its allies in wars, conflicts and peace operations.

The Program is designed to preserve Australia's wartime heritage and to involve people throughout the nation in a wide range of projects and activities that highlight the service and sacrifice of Australia's service personnel in wars, conflicts and peace operations, and promote appreciation and understanding of the role that those who served the nation have played in shaping the nation.

Definition of Major

MCG's are commemorative projects/activities that are significant from a National, State or Territory perspective. This means that:

- the project must be commemorative of the service and sacrifice of service personnel **beyond the local community**
- the project must be **available to** and consist of elements that are applicable to the whole State/Territory or even the whole Nation
- must be able to demonstrate in an application how the project is relevant to the whole State/Territory or to the Nation
- if the project commemorates the service and sacrifice of those who served from the local town or district, irrespective of the cost or significance to the local community it would **not** be considered as an MCG
- the subject matter must be significant to the whole of the State/Territory or Nation – the project must deal with matters or events which have a broader impact than local community interests
- if the project is to do with a memorial it must be the only one in the State/Territory or Nation that commemorates a particular conflict or peace operation or be the pre-eminent memorial, usually at which the State/Territory or National service is held
- the monetary value of the project has no bearing on the eligibility for this grant – a high-value project does not necessarily mean that it is of National, State or Territory significance.

What is not Major Commemorative Grant

Projects that:

- are of primary benefit to the **local** community
- are supported by and centred on the **local** community
- are commemorative of the service and sacrifice of **local** community members
- duplicate memorials/publications/events that are already available within the State/Territory or Nation
- are accessible primarily only by the **local** community.
