- *Your role(s) on government or regional organisation committees which may have improved environmental decision making, knowledge or environmental outcomes.*
- *Your links with any non-government groups or networks of relevance to the hub scope.*

Research Quality

- *Editorial committees/boards (or memberships) over the last 10 years.*
- *Peer Reviewed Journal Articles: (insert #), h-index: all, since 2015; i10-index: all, since 2015.*

Training/Supervision:

Current: X PhD Students, X Honours & X post docs; Completed: X PhD, X Honours, X post docs

Science Communication (150 words)

- *Please outline verbal and written science communication expertise and experience (over the last 5 years).*
- *Describe how you intend to integrate your broader science communication activities with the proposed hub.*

National/International Esteem (100 words)

- *Describe the level of impact/recognition your research has had nationally and internationally.*

Leadership (150 words)

- *Describe your experience and skills in leading collaborative and multi-disciplinary research effort.*
- *Describe how you intend to apply your skills to the leadership of this hub.*

MISSION LEADER: Name, Relevant mission

Current academic employment and positions (including through other research programs e.g. ARC, CRC etc.)

Professor of XXX, University of XXXX, YYYY – Present/YYYY

ARC Laureate / Future Fellow, ARC/NHMRC, YYYY-YYYY

Project Leader, CRC for XXXX, Department of Industry, YYYY-YYYY

Highest Qualification: *Year: Qualification, Institution*

Major Prizes, Medals and Honours (up to five)

YYYY, Award

Impact on Policy and Management (500 words)

- *List the top three projects you have been involved in that have resulted in policy change/could improve policy or that have developed tools, metrics or approaches which assist decision making or management. For each project please include a description of the project's impact, how that impact was achieved and your role in the project.*
- *Your role(s) on government or regional organisation committees which may have improved environmental decision making, knowledge or environmental outcomes.*
- *Your links with any non-government groups or networks of relevance to the hub scope.*

- *Peer Reviewed Journal Articles: (insert #), h-index: all, since 2015; i10-index: all, since 2015.*

Training/Supervision:

Current: X PhD Students, X Honours & X post docs; Completed: X PhD, X Honours, X post docs

Science Communication (80 words)

- *Please outline verbal and written science communication expertise and experience (over the last 5 years).*

FOR HUB MANAGERS/ADMINISTRATORS: Name, Role in the Hub

Relevant Employment and qualifications (including through other research programs e.g. ARC, CRC etc.).

E.g. Manager/Administrator, University of XXXX, YYYY – Present/YYYY

E.g. Administrator for ARC/NHMRC, YYYY-YYYY

Qualification, Institution, Year

Your proposed role in the hub (80 words)

- *Please outline your proposed role in the hub and how you will assist the hub achieve its objectives.*

Leadership (250 words)

- *Describe your experience and skills in managing collaborative and multi-disciplinary consortia.*
- *Describe how you intend to apply your skills to the management of this hub.*

FOR INDIGENOUS FACILITATORS: Name

Relevant employment and qualifications (including through other research programs e.g. ARC, CRC etc.)

E.g. Indigenous Liaison Officer, XXXX, YYYY – Present/YYYY

E.g. Science Communicator/Knowledge Broker, University of XXXX, YYYY – Present/YYYY

Other relevant experience

Qualification, Institution, Year

Impact on Policy and Management (see suggested examples to include – you may use others) (150 words)

- *Your role(s) in government, regional organisations, committees or research institutions which may have improved decision making, knowledge or outcomes.*
- *Your links with any non-government groups or networks of relevance to the hub scope and your role as Indigenous Facilitator.*

Communication Skills (100 words)

- *Please outline verbal and written communication expertise and experience that will assist in your role as a cultural knowledge broker (over the last 5 years).*

Leadership (200 words)

- *Describe your experience and skills in establishing and maintaining positive relationships with Indigenous communities.*
- *Describe how you intend to apply your skills to the leadership of this hub and to the Indigenous Facilitation Network.*

FOR KNOWLEDGE BROKERS (only complete if an individual has been decided): **Name**

Relevant employment and qualifications (including through other research programs e.g. ARC, CRC etc.)

E.g. Knowledge Broker, University of XXXX, YYYY – Present/YYYY

E.g. Knowledge Broker for ARC/NHMRC, YYYY-YYYY

Other relevant experience

Qualification, Institution, Year

Impact on Policy and Management (see suggested examples to include – you may use others) (250 words)

- *Your role(s) in government, regional organisations or research institutions which may have improved environmental decision making, knowledge or environmental outcomes.*
- *Application/development of tools, metrics or approaches which assist decision making or management.*
- *Your links with any non-government groups or networks of relevance to the hub scope.*

Science Communication (100 words)

- *Please outline verbal and written science communication expertise and experience (over the last 5 years).*

Your proposed role in the hub (150 words)

- *Please outline how you will apply your experience and skills to your role in the hub.*

FOR DATA WRANGLERS (only complete if an individual has been decided): **Name**

Relevant employment and qualifications (including through other research programs e.g. ARC, CRC etc.)

E.g. Data Wrangler, University of XXXX, YYYY – Present/YYYY

Other data management experience

Qualification, Institution, Year

Impact on Data Management (see suggested examples to include – you may use others) (250 words)

- *Your role(s) in government, the private sector or research institutions which may have improved data quality, standards and best practices for data delivery and integration.*
- *Application/development of tools or approaches which assist data use and migration.*

Your proposed role in the hub (100 words)

- *Please outline how you will apply your experience and skills to your role in the hub.*
